Course Pre-requisites, Co-requisites, and/or Other Restrictions

Undergraduate Atmospheric Dynamics, Fluid Dynamics or equivalent (solid calculus, PDE and physics backgrounds)

Course Description

This course focuses on numerical modeling of hurricanes, tropical meteorology and climatology, midlatitude cyclones, storms, and weather systems, and severe local storms affecting the US continent, and other weather phenomena. Students are required to pursue research on a subtopic and make presentations of the results. In particular, the use of the Weather Research and Forecast (WRF) model in simulating hurricanes and other weather phenomena will be emphasized in the research. In order to facilitate the scientific research and discussions, NCAT ISET Center PIs and collaborators who are working on weather related modeling and data analysis are invited to participate in the class.

Student Learning Objectives/Outcomes

- Objective:** Use analytical thinking skills to evaluate information critically
- Outcome:** Students will demonstrate the ability to answer conceptual questions raised during their presentations.
- Objective:** Effectively relate basic ideas and concepts to more sophisticated atmospheric systems in tropics.
- Outcome:** Students will demonstrate the ability to summarize their research and present it to the class effectively and participate in discussions.

Required Textbooks and Materials

Required Texts

None

Suggested Course Materials

Suggested Readings/Texts

- (1) Tropical Cyclones and Tropical Meteorology
- (2) Tropical Climate
- (3) Synoptic and Mesoscale Dynamics
- (4) Storm Dynamics

Academic Integrity

Enrollment in the class means that you agree to abide by the expectations of North Carolina A&T State University about academic integrity. For specific information refer to your Student Handbook. Also, refer to the most current Undergraduate Bulletin for the academic dishonesty policy. The North Carolina A&T State University's Academic Honor Code will be enforced.

Your responsibilities in the area of honor include, but are not limited to, avoidance of cheating, plagiarism and improper or illegal use of technology. Your presentations, assignments, and quizzes are expected to be your own work. Any questions about these should be directed to the professor. It is permissible to request assistance from a librarian when doing database research as long as the selection and organization of the research for the presentation is in your own work.

Class Attendance

The College of Arts and Sciences requires students to be on time for class and to attend class on a regular basis. If the student has unexcused absences, is late for class or leaves class early, the student's grade may be lowered.

(See attendance policy set forth by the instructor in the course syllabus.)

Excused absences will comply with the following university policy on make up work: "Sickness (verification needed); death of relative (immediate family); participation in an approved university related activity; acting in the capacity of a university representative (band, choir, sports, related travel, etc.); extraordinary circumstances including court appearances, family emergency~ at the discretion of the professor, etc. require a signed statement.

NOTE: "Other reasons for class absences are not acceptable."

Classroom Citizenship

Normal classroom decorum is expected.

Technical Support

If you experience any problems with your A&T account you may call Aggie Tech Support (formerly Help Desk) at 336.334.7195.
